PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with 6+ years building production web applications, specializing in React.js, Next.js, and TypeScript, with Node.js / Express.js and Python (AWS Lambda) backend experience to deliver features end-to-end. Builds responsive, accessible, and high-performance interfaces, reusable component libraries, and data-heavy dashboards for enterprise SaaS in pharma-tech, real estate, and legal-tech, including a platform serving 1.5M+ agents. Comfortable owning the full flow from UI and state management to REST/GraphQL APIs, databases, and deployment on Vercel and AWS. Daily user of AI coding tools (Claude Code, OpenAI Codex, MCP-based agents) and experienced shipping LLM-powered UI into production. Clear async communicator in remote, distributed teams.

TECHNICAL SKILLS

Frontend: React.js, Next.js (SSR), TypeScript, JavaScript (ES6+), Gatsby, HTML5, CSS3/SCSS, Tailwind CSS, Material UI, Bootstrap

UI Engineering: Reusable Component Libraries, Responsive & Accessible UI, Complex Forms, Dashboards, Performance Optimization, Cross-Browser Compatibility, Jest Testing

State & Data: Redux Toolkit, Zustand, Context API, REST APIs, GraphQL, WebSockets, JSON Data Flows

Backend & Cloud: Node.js, Express.js, Python, AWS Lambda, AWS CDK, Authentication, MySQL, MongoDB, DynamoDB, Elasticsearch, Stripe, PostHog, Vercel, AWS, CI/CD, Git, GitHub, Code Reviews

AI Tools & LLMs: Claude Code, OpenAI Codex, MCP Servers, OpenAI / Claude / Gemini APIs, RAG, Vercel AI SDK, AI Chat & Dashboard UIs

PROFESSIONAL EXPERIENCE

Full Stack Developer | Earnings Call

Jan 2026 – Present

- Build client-facing SaaS interfaces with **React.js and TypeScript**, including dashboards, admin panels, forms, and task-monitoring views.
- Own features end-to-end, from UI and state management to **Node.js / Express.js** REST endpoints, **MongoDB / MySQL** data models, and deployment.
- Built **AI-powered dashboards and chat interfaces** on top of LLM APIs (OpenAI, Claude, Gemini) and RAG pipelines.
- Debug and optimize existing features for performance and reliability; deploy on **Vercel and AWS** using logs to resolve production issues.
- Use AI coding agents daily for building, reviewing, and debugging, and communicate progress clearly in a distributed async team.

Senior Frontend Developer | Macrosoft Pakistan

Aug 2022 – Jan 2026

- Delivered enterprise SaaS frontends across pharma-tech, real estate, and legal-tech using **React, TypeScript, Next.js**, and **Tailwind CSS**.
- Built reusable components, dashboards, admin panels, and complex forms; optimized rendering and cross-browser behavior for data-heavy UIs.
- Integrated **REST and GraphQL APIs** and defined API contracts, JSON payloads, and data models with backend engineers.
- Introduced **AI-augmented development (Claude Code, OpenAI Codex)** and **MCP integrations** to speed up delivery and standardize quality.
- Led code reviews, enforced frontend standards, and supported Vercel and AWS deployments.

Frontend Developer | [MayaBytes](#)

Sep 2021 – Aug 2022

- Built stable, maintainable React codebases and shipped new features for client-facing web products.
- Converted UI/UX designs into clean, reusable components with Material UI and Bootstrap, working closely with designers.
- Integrated **RESTful APIs**, optimized for performance, and led bug fixes and code reviews.

Junior Frontend Developer | [Techsurge](#)

Sep 2019 – Aug 2021

- Implemented dynamic, accessible UI features with React, HTML, CSS, and JavaScript for Psych Plus 2.0, a mental-health SaaS platform (team of 10).
- Built responsive product listing, cart, and checkout flows for an e-commerce platform (team of 5), integrated with REST APIs.

SELECTED PROJECTS

Lone Wolf Technologies | React, TypeScript, GraphQL, Redux Toolkit

- Developed and maintained UI for North America's leading real estate platform serving **1.5M+ agents and 10,000+ brokerages**.
- Wired GraphQL queries and mutations into Redux state across transaction management, back-office accounting, and CRM modules.

CRM & Payments Platform | Python, AWS Lambda, AWS CDK, DynamoDB, Elasticsearch, Gatsby, React

- Develop Python API handlers, CRM logic, and background workers on **AWS Lambda**, with infrastructure as code in TypeScript using AWS CDK.
- Build the Gatsby and React frontend (SCSS, Bootstrap, Jest) on a backend using DynamoDB, Elasticsearch, **Stripe payments**, and PostHog analytics.

Norstella | React, JavaScript, Bootstrap, Zustand, SSR

- Built SSR-powered, responsive interfaces for a pharmaceutical data platform supporting patients and providers.
- Developed reusable component libraries with Zustand state management and optimized rendering for a data-heavy enterprise UI.

Stretto | React, TypeScript, REST/GraphQL APIs, Material UI

- Delivered case management, claims administration, and legal-noticing interfaces for a market-leading legal-tech SaaS platform.
- Built accessible, responsive layouts integrated with backend APIs and JSON data flows.

EDUCATION

B.Sc. Computer Science | [KASBIT University](#)

Class of 2017

Awards: IU Scholarship Award • Leadership Excellence Award

CERTIFICATIONS

- Frontend & React Developer Certified, Scrimba (2019)
- AI-Augmented Development: Prompt Engineering & LLM Integration (Self-directed, Ongoing)
